

February 25th, 2011

Scott Koenhke
Water Management Specialist
Department of Natural Resources
State of Wisconsin

Dear sir:

Re: your letter of February 14, 2011.

The Pigeon Lake District has duly appointed me to the Fairway Lake Committee. As a co-chairman of that committee I am sending you this reply at the request of Dennis Krueger, President of the Lake District.

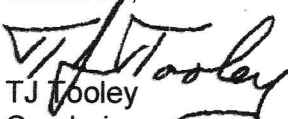

In your letter of notification regarding our permit application, ----*"to place a recirculator on the bed of the Fairway Lake area of Pigeon Lake in the city of Clintonville, Waupaca County."* --- you stated that in your opinion our application was incomplete.

To justify this statement you stated that in your opinion *"the scientific research regarding the efficacy and limitations of this type of technology to address the concerns of residents around Pigeon lake and specifically the Fairway Lake area, indicates that your proposal has a high probability of not meeting your desired objectives and expectations (copies of these references are available upon request)."*

Please note: this is our request for copies of the references you used. Please understand, we will need your interpretation of each of these references with quotations from exact locations within these references to indicate how they support the conclusions you have formed.

We would appreciate your swift attention to this request, as you know we are under your department's time constraint of 45 days to reply to your notification of incomplete application.

Sincerely,

TJ Tooley
Co-chairman
Fairway Lake Committee
PLR&PD
